**Subject:** Mining Plan determinations - Emery Deep & Savage  
**Attachments:** Emery.dsp.doc; Savage.pap.doc

Attached are OSM's final decisions regarding the need for Mining Plan Modifications for the above subject. Signed copies were sent to you in Monday's mail.

In accordance with the Federal regulations under 30 CFR 740.13(d), other Federal agencies that may have an interest in, or jurisdiction over, the above subject operation have also been notified of OSM's decision electronically.

No responses to this transmittal are necessary.

RE: Savage Services Corporation "Savage Coal Terminal" - Application for a Permit  
Revision, Permit Reformat, Task ID No. 2955

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas & Mining's (UT-DOGM) April 15, 2008, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Permit Reformat, has determined that it proposes to replace the existing Volumes 1 and 2 with reformatted versions and add a new Confidential Volume to the approved permit application package for the Savage Coal Terminal, Utah State permit C/007/0022.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Permit Reformat, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the April 15, 2008, request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

In an electronic submittal dated April 21, 2008, the USDA Forest Service stated had no comments or concerns with the permit revision application.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 293-5038.

Sincerely,

Foster E. Kirby  
Acting Manager, Northwest Branch
